## About Me

Motivated individual with a strong background in mathematics, statistics, and programming. I recently completed lessons on machine learning algorithms, data preprocessing techniques, and model evaluation metrics. Practical Python programming experience with NumPy, Pandas, and scikit-learn. Eager to apply academic knowledge to real-world problems and broaden skills in an ever-changing industry. Excellent problem-solving abilities and a strong desire to learn and grow as a machine learning professional. Looking for opportunity to contribute to significant projects while working alongside experienced mentors.
